### Analyse

The 'Analyse' section features a line graph with two data series: 'Zeit' (Time) and 'Fehler' (Error). The x-axis is labeled 'Datum' (Date). The 'Zeit' series starts at a medium level, peaks, then fluctuates before settling at a lower level. The 'Fehler' series starts at a low level, peaks, then fluctuates before settling at a lower level. To the right of the graph is a control panel with three buttons: 'Symmetrie' with a downward arrow, 'Zeitraum' with a downward arrow, and 'Vergleich' with a downward arrow.

### Altersvergleich

The 'Altersvergleich' section contains two bar charts. The left chart compares 'Zeit' and 'Fehler' for two groups, 'K' and 'D'. For 'Zeit', the 'K' group has a higher bar than the 'D' group. For 'Fehler', the 'D' group has a higher bar than the 'K' group. The right chart compares 'Zeit' and 'Fehler' for two groups, 'K' and 'D', under the 'Symmetriotyp' category. For 'Zeit', the 'K' group has a higher bar than the 'D' group. For 'Fehler', the 'D' group has a higher bar than the 'K' group.

Bedingung	Zeit (Fehler)	Fehler (Fehler)
K	Hoch	Niedrig
D	Niedrig	Hoch
